

Phyllis Lowe – Round Lake Representative, 2023

I am an enrolled tribal member, a tribal elder and a St. Croix Casinos employee. I began working for the St. Croix in 1972 as CHR Community Health Representative. I have worked in the health field for 46 years, for ten of those years as Health Director.

I was first elected to the Tribal Council in 1983 and was elected to three additional terms in later years. I have earned a Bachelor's in Social Work and a Master's in Education. For five years, I served as an adjunct professor for LCO Community College teaching Ojibwe language and Native American studies. I am conversant with all of the current government programs, always strive to learn about new ones and will promote new innovations. My education has enhanced my leadership role and given me tools to help guide the tribe to greater success and achievements.

I always give 100% to everything I do, devoting my best effort to every project. I work eight hours a day, am always on time and always achieve perfect attendance.

My primary goal is ensuring the St. Croix Tribe's success, which I will undertake to do through collaboration, communication and supporting our most important resource – our people. I respect all tribal members, families and friends. I will work hard to ensure the continuation of current benefits offered all tribal members.

I look forward to being elected to serve you. I will work hard and be there for you.
